

## Aviation English : Private pilots

Our courses are designed to prepare **private pilots** for the ICAO English Proficiency Test and give confidence when speaking English inside and outside the cockpit. Recognising the varying time and budget constraints of busy professionals, we have designed three types of course to suit these different needs:

- 1:1 Aviation English in the UK
- Aviation English by Skype
- Aviation English self-study

## Course structure

All our courses are designed in accordance with ICAO document 9835, and cover the vocabulary and grammar recommended in this document. The courses also focus on the six ICAO language descriptors (pronunciation, vocabulary, structure, interaction, comprehension and fluency), developing knowledge, skill and confidence in each area.

## Lessons

A typical lesson involves discussing an aspect of flying, such as the moveable surfaces on an aircraft. During the lesson you will learn their English names and explain the function of each moveable surface. The lessons are highly interactive and involve a communicative approach, producing a dynamic learning environment. The lessons are very much focused on the learner and encourage discussion through question and answer sessions, role plays and description of photographs. For example, discussion might develop after watching a short video of an aircraft taking off and it may involve explaining which flight controls and moveable surfaces are used during take-off. During the lesson the teacher offers correction and advice which helps the learner to improve accuracy and fluency.

## 1:1 Aviation English in the UK

Our popular courses in the UK are based in Oxford, and a choice of accommodation either with a host family or in a hotel. You will receive 25 hours of 1:1 lessons over the week, together with all the course materials required to complete your studies. If you can take some time out of your schedule, this 'total immersion' course is one of the best ways to prepare for your ICAO English Proficiency Test.

## Aviation English by Skype

Our Skype courses are a good choice if you are short on time and would prefer to fit lessons into your normal weekly routine. Courses are centred on a 55minute 1:1 Skype lesson with your teacher, with materials emailed to you and lessons arranged at your convenience. These courses are extremely flexible, some students having 1 lesson/week, whereas others prefer to study at a faster rate and have 2 or 3 lessons/week. Some self-study prior to each lesson is important to achieve success.
